Ticonium's

**ALL
NEW**

Developments...

STRESS-O-GRAPH — New, modern, accurate surveyor with a Micro-Meter gauge which measures undercuts accurately. Magna-Mount table insures accuracy on every case.

STRESS-CHECKERS — precise, accurate castings made better with a metal shim (Ames) or prefabricated plastic former (Baca) for built-in accuracy on every partial denture.

TRU-RUGAE — for brighter, sparkling cases! Use of a plastic wafer now produces the most minute details of every patient's rugae.

SURGICAL APPLICATIONS — requires a special alloy. Ticonium developed its famed #25 surgical alloy for use in implantation and replantation. Another Ticonium exclusive!

Branch Officers' Conference

The second annual Branch Officers' Conference of the Chicago Dental Society was held on Tuesday evening, June 19th, at the Palmer House. After a very excellent dinner, President Luebke greeted those present and wished the branch officers a most successful year. He then introduced Dr. Rudolph H. Friedrich, Secretary to the Council on Dental Health Education of the American Dental Association, who spoke on the subject, "Group Care and Dental Health Programs." He expressed the hope and urged that organized dentistry be ready to meet the challenge when such programs are presented and that we do everything in our power to be informed and fully prepared with a worthwhile and workable plan. He gave many excellent suggestions which should aid us greatly when we formulate our program. Certainly those present came away with a better understanding of a very pressing problem and with some excellent information as to how to proceed. Dr. E. Goldhorn, Chairman of the

Illinois State Dental Society Committee for Group Health Plan Care, then discussed Dr. Friedrich's presentation and told us of this committee's activities. He stated that they had held a preliminary meeting with a local Chicago union to talk over the matter of dental care. A very interesting question period followed which brought much further light on this subject.

The meeting then went into a general problems discussion, with the Editor suggesting that the Branch news be used more widely for publicizing branch monthly programs as the branch news is read by almost every member. Another suggestion was that the entire year's program be sent out on a card which can be hung in the lab where it can be a constant reminder of the program for each month.

There was considerable exchange of thoughts and suggestions and all of us came away better informed and stimulated to go out and do a better job in our branches and for the parent society. —E.E.

Branch Editors' Conference

The annual Branch Editors' Conference of the Chicago Dental Society was held Wednesday, June 27th, at the Palmer House. Seventeen Branch correspondents, officers, and guests met for luncheon, after which Society President Edward W. Luebke spoke briefly, bringing the greetings of the Society and his best wishes for a most successful year. Then Dr. Lon Morrey, Editor of the *Journal of the American Dental Association*, addressed the group, telling us of some of the problems which go with the preparation of a dental journal and also giving some very valuable suggestions. We all came away with a better understanding of our jobs. Mr. G. Walker Black of the General Printing Company, print-

ers of the *A.D.A. Journal* and our *Fortnightly Review*, expressed his pleasure with the very cordial relations which we enjoy and again invited all of us to tour the printing plant. A goodly number of the group went to the plant and after a very effective "clinic," so to speak, on the preparation of the *FORTNIGHTLY* from the receipt of the copy from the correspondent through the various stages of preparation to the completed magazine, we then toured the plant. It was a liberal education, most enlightening and certainly very enjoyable. To Lon Morrey and to Mr. Black, we would express our very deep appreciation for a worthwhile afternoon and a much better competence in our job.—E.E.

Eli Lilly Trip Proves Popular

Judging by the prompt and enthusiastic response to the first news item about the forthcoming trip for Chicago Dental Society members and their wives to the plant of the Eli Lilly Company in Indianapolis the limit of 150 persons is going to be reached long before the date set, September 23rd. Just so the REVIEW can't be accused later of not having "told" everyone about the trip we are repeating the information in this prominent spot:

The group departs by train at 2:15 p.m. on Sunday, September 23rd and will return to Chicago at 9:40 p.m. on Tuesday, September 25th. The round trip fare is \$10.40 and that is the only expense involved. Hotel accommodations in Indianapolis, meals and entertainment are provided by Lilly's.

Reservations for the trip are being accepted at the office of the Chicago Dental Society, 30 North Michigan Avenue, Chicago 2, strictly in the order checks are received. Checks for the rail fares should be made payable to the Society and mailed to this address.

The group will be limited to the first 150 applicants. This limitation is imposed by the number of hotel rooms available in Indianapolis.

Northwestern University Dental School announces a postgraduate course entitled, "Periodontics for the General Practitioner—I"

to start October 17, 1956, and to continue on Wednesday afternoons for a total of nineteen sessions from October, 1956 to June, 1957.

The course will be under the leadership of Dr. Max Gratzinger and will deal with specific problems of periodontics encountered in general practice. Basic principles of diagnosis and treatment will be included, but the practical aspects will be emphasized, particularly in regard to the use of removable appliances during treatment. Patients can be supplied by the participant for consultation and treatment.

Tuition \$500.00. Enroll now by sending a check for \$35.00 to hold a place in the course, since the enrollment is limited. Address the Director of Postgraduate Study, Northwestern University Dental School, 311 East Chicago Avenue, Chicago 11, Illinois.

Anonymous communications will receive no consideration whatever.

Manuscripts and news items of interest to the membership of the society are solicited.

Forms close on the first and fifteenth of each month. The early submission of materials will insure more consideration for publication.

Published semi-monthly by the Chicago Dental Society. Publishing, Editorial and Advertising office: 30 North Michigan Avenue, Chicago 2, RAndolph 6-4076. Annual subscription \$2.50, singles copies 15 cents; circulation 6,000 copies.

The Chicago Dental Society
takes pleasure in presenting

DR. ROBERT B. SHIRA

of the Walter Reed Army Medical Center
who will speak on

ORAL SURGERY

at the regular monthly meeting

Tuesday, December 18, 1956

8:00 p.m. at the Conrad Hilton

in the WILLIFORD ROOM, Parlor B

Dr. Shira will present material on cutting a tissue flap and eliminating buccal or labial process for surgical extraction, alveolectomy, splitting roots in molar extractions, suturing, when and when not to extract a tooth in the presence of acute infection and swelling, aseptic care during extraction or minor surgery, how to make a biopsy and care for the tissue to be sent to the laboratory, post-operative treatment in the presence of dry socket, the local use of antibiotics, dressings in sockets after difficult extractions and the choices of anesthetics to use on cardiac patients.

Robert F. Tuck, Chairman

Monthly Meeting Program Committee

Looking ahead to January:

Periodontia with Drs. Balint Orban, Frank M. Wentz and John A. Kollar
